HoloGrey® Rear-Projection Screens
BALANCED BRIGHTNESS & CONTRAST FOR REAR PROJECTION

Overview

Constructed of rigid acrylic and designed with Embedded Optics Technology for a balance of brightness and contrast in uncontrolled indoor lighting conditions. Can be used in conventional in-wall projection, framed, or freely suspended by thin wires for eye-catching, open air "floating" displays. Because of its ability to present bright and colorful images in ambient light, it is a popular choice for shopping malls, retail stores, bowling alleys, supermarkets, restaurants, banks, hotels, airports, real estate offices, theater lobbies, etc. Available in all sizes or shapes up to 78" x 139" or can be tiled to any size.

Common Applications for HoloGrey® Screens

- Shopping Malls
- Retail Stores
- Bowling Alleys
- Supermarkets
- Restaurants
- Banks
- Hotels
- Airports
- Real Estate Offices
- Theater Lobbies
