Q&A

Can I choose the color of my table?

Yes, you can choose your color from our list of standard colors or we can provide custom color options.

What operating systems do you provide?

We provide the following operating systems: Windows, Mac, Android, and Linux.

Can I list the specifications of the computer in my touch table?

We have standard systems that we can include or we can build systems to your specifications.

How long does it take to receive a touch table once ordered?

If not in stock, standard lead time is 3-4 weeks for a standard table.

How many touch points come standard on a touch table?

Touch tables come standard with 10 touch points unless otherwise requested.

Will people be able to access my computer running that table?

All of our touch table designs come standard with locking access panels that house your operating systems.
